Editor's Note

For the 20th Congress, the International Association of Empirical Aesthetics has provided the Congress Proceedings on the CD. I hope that you like this format and find it convenient.

This CD is organized in the following way. In this file there is a master table of contents hyperlinks (shown in blue and underlined text) to each day of the Congress. You can go to any day of the Congress by clicking on the hyperlinked day in the table of contents. This will take you directly to a table of contents for that day with paper session and symposia titles hyperlinked (shown in blue font). You can navigate to a particular session by clicking on the paper session or symposium you would like to browse. Each paper title is also hyperlinked directly to its corresponding paper. Simply click on a paper title to go directly to that paper. You will also find a list of hyperlinked bookmarks to on the left side of each day's PDF file with the table of contents shown in red, sessions in blue and papers in black. You can use these bookmarks as a further navigation tool. At the end of each day's menu are links to the other days of the Congress. Click on the day to which you want to navigate.

Unlike the Program Book for the Congress, I have not included the Art Exhibition and Artists on their Art entries twice. All Proceedings papers for the art contributions can be found in the Art Exhibition session in the file for the Wednesday August 20, 2008 sessions.

I want to thank all of the Congress participants who contributed to these Proceedings. I know how much work and effort went into their contributions.

To continue, simply scroll down to the master table of contents.
